L697: Information Visualization (Spring 2002)

Project 1

Personal Homepage
Design a Personal Homepage

In this project, you will setup your environment and design a personal webpage that provides the following information:

- Your name, E-mail address, department, status (senior, Ph.D.).
- A jpeg file containing your photo. The size of the image has to be 200 pixel width and 250 pixel height.
- A description of any programming experience you have.
- Software (Word, Excel, Photoshop, ...) you are fluent with.
- A list of IV related courses you took.
- A paragraph why you are interested in IV.
- A paragraph what you expect to learn in this course.
- A link to the source code of the best Java applet or application you ever wrote.
The information you provide will be used to adjust course materials. Please be honest.
Handin

- Check out [http://ella.slis.indiana.edu/~katy/L542-F01/sol1.html](http://ella.slis.indiana.edu/~katy/L542-F01/sol1.html) for general tips & hints.
- Store your final webpage(s), image, java code etc. in your ella account.
- Submit the link via the project handin web page at: [http://ella.slis.indiana.edu/~rmukkama/login697.html](http://ella.slis.indiana.edu/~rmukkama/login697.html)

Contact Raghu ([rmukkama@indiana.edu](mailto:rmukkama@indiana.edu)) if you have any trouble to login or submitting the page.

The project is due next Tuesday January 15th, 2002 at 8pm (no help after 4pm).
Optional: Compose a Navihedron

1. Go to http://www.navihedron.com/
2. Register to become a member.
3. Compose your own Navihedron.
4. Link to it from your homepage.
5. Discuss advantages and disadvantages of the tool.

Example: The seven sins.
